

# Compare Table Structures

## Step 5: View the comparison result details

Properties	STREET_ADDRESS	STREET_ADDRESS
Column Name	STREET_ADDRESS	STREET_ADDRESS
Data Type	nvarchar	VARCHAR2
Length	50	40
Precision		
Scale		
Allow Nulls		
Default Value		

The **Column Property Differences** dialog is opened.

The dialog shows the found differences, specifying them for each pair of corresponding column properties.

- The black colored lines show the identical properties of the specific columns pair
- Red color indicates different properties of the specific columns pair.
